PORTFOLIO & WEBSITE

Portfolio: vijaylaxmiw.framer.website

CAREER SUMMARY

A Product & Interaction Designer with a recent Master of Design and 3+ years of experience across e-commerce, social enterprise, and SaaS applications. Designs end to end for web, tablet and mobile, from user research and wireframes through to Figma design systems and developer handoff. I am actively exploring AI assisted workflows (Cursor, Lovable, Claude Code) to understand how to prototype and iterate on predictive, user centered interfaces. I am also exploring Midjourney and Nano Banana to explore my artistic imagination, converting thoughts into digital renderings.

SKILLS & EXPERTISE IN TOOLS

- **Strategy & UX:** Interaction Design, UI/UX design, User research, Information Architecture, Service blueprinting, Design systems, Accessibility & localization, Rapid prototyping, Visual design
- **Design Tools:** Figma, Adobe Creative Suite, Framer, Procreate, SketchUp (3D Spatial), Blender
- **Creative Dev:** HTML/CSS, Java Script, p5.js, Cursor, Lovable, Claude code, Midjourney

WORK EXPERIENCE

HAATI **Remote, Sydney**

Product Designer - Responsive Website *May 2024 - Oct 2025*

- Solo designer **leading 0–1 design, product, and brand**, covering visual identity (illustrations, colour palette,typography, a set of badges and icons) and Instagram content.
- Translated the field research with artisans across India into design requirements, and reviewed home grown sustainable Indian brands to see how they present their products.
- Iterated on early stage wireframes to design an interface connecting rural Indian artisans with consumers, including a dual pathway for artisans and customers on the landing page. Increased Artisan signup by **5% over 6 months.**
- Handed Figma designs to an external developer; the curved text badge treatment (Figma plugin) did not translate to **HTML**, which taught me to confirm technical feasibility with developers before hand off.

HAQDARSHAK **Pune, India**

Brand Designer and UI Designer *Aug 2023 - May 2024*

- Co-led the core **logo redesign** for a national social impact organisation (featured on Shark Tank India) and developed digital campaign assets, including a multi-language **typography system** for local language audiences, that translated its core values into a consistent brand.
- Introduced modular digital design assets and maintained a centralised brand guidelines system. Field setup time reduced from **4 to 2 working days**.
- As UI designer, collaborated on the design of the haqdarshak.com **landing page**, including the initial iterations, and built a scalable grid based layout.

VISAVA **Pune, India**

Product Designer - Web & Mobile *Sep 2022 - May 2023*

- Directed **end-to-end product UX and UI**, established a design system and led weekly technical handoffs with the engineering team.
- Increased usage count of design service by **100%** for over 50% of application users in small sized Indian cities by identifying gaps in free design flow.
- Built **micro interactions** in Figma (staggered sequence loads, multi-screen tool tips) using **components and variants**, and fixed Smart Animate ghosting in complex page loads with strict layer naming conventions.
- Established a design system and held weekly **Developer handoffs** with the engineering team.

CREATOSAURUS **Pune, India**

Graphic Designer & Illustrator *Feb 2022 - Aug 2022*

- Secured a full-time role within three months of an internship by producing custom **illustrations and social media assets** for a scalable, template based design platform.
- Populated the platform's design repository with **20+ reusable templates, logo variants and digital components**.
- Established a scalable, technical design system to maintain visual and functional consistency across various platform features.
- On time delivery of **100%** and a first pass yield of **95%** for all the production assets for creatosaurus.io

SELECTED PROJECTS

Rehabilitation Network Design Strategy

University of Sydney, vijaylaxmiw.framer.website

- Directed the **end-to-end design** strategy for a rehabilitation network, and took over execution and architecture individually after team restructuring.
- Navigated a highly complex, multi stakeholder environment by co-designing the core **interaction framework** alongside artists, educators, and domain experts.
- Synthesized dense informational requirements into an intuitive, scalable **user experience**, ensuring **accessibility and usability** across varying user contexts.

CERTIFICATIONS

- Google UX Design Certificate *Jul 2023*
- *Udemy Graphic Design Masterclass* *Oct 2021*

EDUCATION

University of Sydney **Sydney, NSW**

Masters of Design - Strategic Design & Design Innovation - Distinction *Graduation Date: Jun 2026*

Gogte Institute of Technology **India**

Bachelor of Architecture - CGPA: 8.4 *Graduation Date: Jun 2022*
