CAREER SUMMARY

A Product & Interaction Designer with a recent Master of Design and 3+ years of experience across e-commerce, social enterprise, B2B, B2C, and SaaS applications, specializing in end-to-end interaction design for web, tablet, and mobile experiences. I am actively exploring AI-assisted workflows (Cursor, Lovable, Claude Code) to understand how to prototype and iterate on predictive, user-centered interfaces.

SKILLS & EXPERTISE IN TOOLS

- **Strategy & UX:** Interaction Design, UI/UX design, User research, Information Architecture, Brand strategy, Service blueprinting, Design systems, Accessibility & localization, Rapid prototyping, Visual design
- **Design Tools:** Figma, Adobe Creative Suite, Framer, Procreate, SketchUp (3D Spatial), Spline
- **Creative Dev:** HTML, CSS, Java Script, p5.js, Cursor, Lovable, Claude code

WORK EXPERIENCE

HAATI - B2C

Product Designer

Remote, Sydney

May 2024 - Oct 2025

- Led end-to-end product design, translating user research into robust, grid-based UI layouts that scale seamlessly across multiple device form factors and interactive contexts.
- Decreased design revision cycles by nearly 10% and secured immediate stakeholder approval by rapidly iterating on early-stage wireframes to build a highly accessible, predictive interface that effectively bridges the digital gap between rural artisans and modern consumers.
- Accelerated digital asset production workflows by 10% while driving awareness for sustainable Indian crafts by developing a cohesive visual brand identity from scratch, encompassing bespoke illustrations, color theory, and custom typography.
- Embraced the platform's community-driven mission by testing UI output directly in HTML & CSS, ensuring authentic audience representation and technical feasibility.

HAQDARSHAK - B2C

Brand & Product Designer

Pune, India

Aug 2023 - May 2024

- Unified visual identity for a national social impact organization (featured on Shark Tank India) to translate core values into a consistent brand strategy, co-leading the core logo redesign and developing a comprehensive suite of digital campaign assets.
- Streamlined campaign workflows by introducing strict modularity into digital design assets and maintaining a centralized brand guidelines system, resulting in field setup time reduction to 2 working days and improving cross-functional collaboration.
- Increased development handoff efficiency by roughly 5% and improved visual hierarchy across haqdarshak.com by acting as a UI design consultant and implementing a scalable, grid based layout system.
- Optimized local accessibility and decreased design revision cycles by 10% by engineering a robust, multi-language typography system into the grid-based UI, ensuring authentic audience representation.

VISAVA - SAAS

Pune, India

Product Designer

Sep 2022 - May 2023

- Reduced front-end implementation time by roughly 10% by directing the end to end execution of product UX and UI, establishing a sophisticated design system, and leading weekly technical handoffs with the engineering team.
- Engineered high-fidelity micro-interactions, including staggered sequence loads and multi-screen tooltip hover states, using Master Components and nested text properties, decreasing UI component rework by 15%.
- Eliminated Smart Animate ghosting errors (achieving a 100% reduction in crossfading issues) by engineering strict layer naming conventions in Figma for complex page loads and tooltip hover states.
- Steered the end-to-end product lifecycle by applying core design thinking methodologies from empathetic user research, user interviews to high-fidelity prototyping, accelerating feature delivery by 15% and resulting in a highly intuitive, user-centric interface.

CREATOSAURUS - B2B & B2C

Pune, India

Graphic Designer & Illustrator

Feb 2022 - Aug 2022

- Secured a full-time role within three months of an internship by driving the end-to-end production of custom illustrations and targeted social media assets for a scalable, template-based design platform.
- Accelerated end-user content generation workflows by an estimated 10–15% by populating the platform's core design repository with a comprehensive library of 20+ reusable templates, logo variants, and digital components.
- Established a scalable, technical design system to maintain visual and functional consistency across 5 distinct platform features, decreasing front end development handoff time by 10%.
- On time delivery of 100% and a first pass yield of 95% for all the production assets for <https://www.creatosaurus.io/>.

SELECTED PROJECTS

Rehabilitation Network Design Strategy

University of Sydney, vijaylaxmiw.framer.website

- Directed the comprehensive design strategy for a rehabilitation network from an end-to-end perspective, stepping up to individually drive 100% execution and architecture following team restructuring.
- Navigated a highly complex, multi-stakeholder environment by co-designing the core interaction framework alongside artists, educators, and domain experts.
- Synthesized dense informational requirements into an intuitive, scalable user experience, ensuring accessibility and usability across varying user contexts.

CERTIFICATIONS

Google UX Design Certificate - Jul 2023

Udemy Graphic Design Masterclass - Oct 2021

EDUCATION

University of Sydney

Sydney, NSW

Masters of Design - Strategic Design & Design Innovation

Graduation Date: Jun 2026

Gogte Institute of Technology

India

Bachelor of Architecture - CGPA: 8.4

Graduation Date: Jun 2022
